ADMINISTRATION

To The Students of Williams School

An annual serves as a record of past accomplishments. It is a book of memories. As such, it does not reflect the true temper of the nation and world of which the school is a part. Today, the world is troubled and the American democracy that we hold so dear is facing a severe test at home and abroad. Many of the values your school has tried to impart become increasingly more important.

As you take your place in the world, remember that the most vital component part of democracy is human relations--respect in the dignity and the integrity of the individual and the group.

May your future be so planned and managed that the important experiences of your life will bring you both honor and satisfaction.

Sincerely yours,

Willis C. Williams

Dedication

In the excitement and hurriedness of present day living, we often forget that a school is more than a name and a building.It is actually the students who make up the school and represent it's accomplishments. Keeping this in mind, we the yearbook staff of 1965-66, dedicate this, the first volume of the "Warrior" to the students of this school- present, past and future, who will cherish the memory of their high school years.
